Made in USA

ROHS

CDI Logic ALG / IQ / Illuminate / LP Probes / C Probes, Mini Logic IQ / ALG / Probes, EMS Mux-Tablet, EMS Mux-PC Software, CORE, and VRS products are CE Marked, indicating these products are RoHS complaint per EU Directives. CDI product components have been tested and meet the compliance requirements to the current EU RoHS directives. The CDI indicators have also passed the CE requirements, including EMI and ESD. Therefore, CDI's products fulfill the requirements of the CE directive and can bear the CE symbol.

REACH

Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), controls the list of Substances of Very High Concern (SVHC). Chicago Dial Indicator (CDI) does not manufacture or use any of these controlled substances or preparations; therefore, CDI does not require registration under REACH. The articles we manufacture do not involve the intentional release of any chemical substances.

WEEE and WEEE-II

CDI product components are made of many recyclable materials, which do not contain any restricted hazardous materials. Therefore, please recycle the CDI product when it completes its useful life.

CALIFORNIA PROPOSITION 65 WARNING

This product can expose you to chemicals including lead, which is known to the State of California to cause cancer, and birth defects or other reproductive harm. For more information go to: www.P65Warnings.ca.gov
